

Description

Nuton RO Booster Pump can be used with the Reverse Osmosis systems for 100 GPD to provide increased pressure to the inlet of the system for increased production. These RO Booster Pumps are used for increasing the incoming water pressure of the RO system.

Features and Benefits

- ▶ Easy handling & operations
- ▶ Low energy consumption
- ▶ Longer functional life
- ▶ Cost effective
- ▶ Self Suction
- ▶ Less Noise and Heating
- ▶ Using Special Glue between the pushing and bearing
- ▶ Better Quality provided by diaphragm and pump sealing

Advantages

- ▶ It can work at any place, even if where do not have municipal water
- ▶ It can work with at high TDS membrane
- ▶ The flow is 10% higher than the same capacity pump of other brand

Operating Condition – 100GPD

Rated Voltage	24VDC
Working Pressure	80psi
Rated Current	0.9A
Maximum Pressure	140psi
Protection	IP54
Maximum Flow	72LPH
